The most popular coverage on campus

As a student beginning your studies at McGill University in September or January and a member of MACES who is registered for 3 or more credits, you have access to one of the most important services on campus, the MACES Student Health & Dental Plan. It covers many benefits not provided by provincial health-care programs, like vision care, dental care, and travel care abroad. International students are automatically covered by the Dental Plan only. Visit www.studentcare.ca/maces for more details on eligibility.

We invite you to verify if you're already covered by another plan (through an employer, parent, or spouse). If so, the student Plan can still be of interest to you, as you can be reimbursed the remaining eligible fees (partially or fully) through your secondary plan.
